Go to the Xtreme to protect your assets from corrosion brought on by sub-standard surface preparation in confined spaces - or areas formerly prohibited from blasting. **This new system is unlike any other conventional pressure vessels or Sponge-Jet Feed Units™:**

**LIGHT AND COMPACT:**
- Fits easily through man-way holes 61cm (24in) diameter
- Weighs less than 59kg (130lb)

**HIGHLY PRODUCTIVE:**
- Capable of full pressure blasting at 8bar (120 psi) with up to a #10 nozzle
- Uses a pneumatic, auger-based system for precise control of media concentration at low pressures
- Holds up to 37L (1.3 cu.ft) of Sponge Media™
- 1¼in piping with 2in Regulator to assure adequate air flow without restriction

**EASY HANDLING & OPERATING:**
- Integrated lifting eyes and hand truck frame for ease of mobility
- Top facing controls and gauges regulate media feed and blast pressure

**OPERATING RANGE:** Smooth Sponge Media flow with nozzle pressure from .1bar (2psi) to 8bar (120psi)

**REQUIREMENTS:** Minimum 2bar (30psi) to power the auger system

**USABLE MEDIA:** Silver Sponge Media™, Red Sponge Media™, White Sponge Media™, Green Sponge Media™ and Blue Sponge Media™ products
